WHAT IT'S ABOUT

AVS (Airflow Visualisation Studies) or AFPT/AFPS (Airflow Pattern Tests/Studies) – previously known as ‘Smoke Studies’ – are a critical tool for ensuring the quality and compliance of pharmaceutical production environments. In this webinar, we will explore:

- The scientific principles of airflow visualisation
- Practical applications in GMP environments
- The latest regulatory developments in the sector

Learn how to design, execute, and defend 360° AVS/AFPS studies to strengthen GMP compliance and inspection readiness.

Key takeaways: AVS/AFPS study setup essentials (protocol, smoke source, camera/views, acceptance criteria) • Common failure modes and how to document/justify results during audits.
