

ASCCA, ISPE Italy Affiliate, PDA Italy jointly organize a two-session Webinar entitled

Biotech days: insight into vaccines and related challenges of the supply chain

Chairs

Cristiana Campa - GSK Vaccines

TBA

Dear Members and friends of ASCCA, ISPE Italy Affiliate and PDA Italy Chapter,

Following the great success of the last two editions, the three associations are pleased to jointly propose the webinar event "**Biotech days: insight into vaccines and related challenges of the supply chain**". The event will consist of two afternoon sessions, scheduled on 24th and 25th November, having as fil rouge the **criticalities and peculiarities of vaccines production and the challenges faced in the supply chain** due to the limitations imposed by the pandemic. These are highly up-to-date topics, an expression of the new manufacturing paradigm on which the whole industry and in particular the pharmaceutical industry has necessarily evolved and improved. The speeches, preceded by a wide-ranging inspirational speech on the challenges in the biotech area, will be presented by representatives of the main pharma companies involved in vaccines production and will end on the second day with an open discussion with equipment manufacturers, engineering companies and other companies involved in pharma production chain, with the aim to discuss and to think about together on current challenges and future proposals.

- Session # 1: Wednesday 24 November 2021
Focus on research and production
- Session # 2: Thursday 25 November 2021
Focus on the supply chain

Wednesday 24 November 2021 - 2.30 pm

Focus on research and production

14:30-14:45	Greetings from the Chairs of ASCCA / ISPE Italy / PDA Italy associations	Sergio Mauri- ASCCA Chair Enzo Lacchini - Ispe Italy Chair Angela Molaschi - Pda Italy Chair
14:45-14:50	Presentation of the session	Chair TBA
14:50-15:30	The scientific and industrial challenge of the development and production of biotechnological therapies	Fabrizio Landi <i>Chair, Toscana Life Science</i>
15:30-15:40	Sponsors presentations	
15:40-16:20	Quality by Design as driving principle to enable a rational and accelerated vaccine product and process development pathway	Daniela Stranges <i>Basic Pharmaceutical Sciences (Technical R&D, Drug Product), GSK Vaccines</i> Antonio G. Cardillo <i>Senior Scientist, TRD-DS Global Innovation Centre, GSK Vaccines</i> <i>!The digital twin: Drug substance and Drug Product journey!.</i>
16:20-16:30	Sponsors presentations	
16:30-17:10	Vaccine Manufacturing during COVID_19 Pandemic: challenges and opportunities, a case study	Micaela Incitti <i>Capital Project Manager & Capex Lead_CATALENT Anagni</i>
17:10-17:50	Multi site technology transfer in the biotech space	TBA, <i>Thermofischer</i>
17:50-18:00	Closing remarks	Chairs

Thursday 25 November 2021– 2.30 pm

Focus on the supply chain

14:30-14:40	Greetings from the Chairs of ASCCA / ISPE Italy / PDA Italy associations	Sergio Mauri- ASCCA Chair Enzo Lacchini - Ispe Italy Chair Angela Molaschi - Pda Italy Chair
14:40-14:50	Presentation of the session	Cristiana Campa - GSK Vaccines
14:50-15:30	Supply chain challenges: shortage of materials for R&D steps	Ombretta De Cesare <i>Supply Chain Manager, AGC Biologics</i>
15:30-15:40	Sponsors presentations	
15:40-16:20	Supply chain challenges: shortage of materials during the manufacturing steps	Speaker TBA, Merck
16:20-16:30	Sponsors presentations	-
16:30-17:30	Round table Chair, Cristiana Campa_ GSK Vaccines	Round table with: <ul style="list-style-type: none">• Manufacturers of equipment• Engineering Companies• Manufacturers of disposable systems• Manufacturers
17:30-17:45	Closing remarks	Chairs
