Pharmintech organizes, at the eve of the show, in co-operation with ISPE Italy Affiliate and PDA Italy Chapter the international conference:

Drug Anti-counterfeiting: a worldwide network of collaboration and improvement

Tuesday, 16 April, 2013
BolognaFiere, Bologna, Italy
Notturmo Room
Service Centre - First floor
Entrance: Piazza Costituzione

The day is conceived as an update point on Anti-counterfeiting state of the art between International Pharma Industry and Pharma Technology Providers, with a strong European presence and delegations from all over the world.

ISPE, the International Society for Pharmaceutical Engineering, is a not-for-profit association dedicated to educating

and advancing pharmaceutical manufacturing professionals and their industry. Founded in 1980, today ISPE serves 25,000 members in 90 countries.

The Parenteral Drug Association (PDA) is a non-profit organization provider of science, technology and regulatory information and education for the pharmaceutical and biopharmaceutical community. Founded in 1946, PDA serves 11,000 members worldwide.

Drug Anti-counterfeiting: a worldwide network of collaboration and improvement

Topic of the day

Drug counterfeiting is constantly changing its shape. While encompassing wider drug types and growing in volumes, the menace increases for patients' health, public health care systems, health care industry itself. Constantly in motion must hence be the anti-counterfeiting action, as shown in the most recent and valuable experiences by Health Organizations, Authorities and Industry in all its components: Manufacturers, Distributors, Technical Solution Providers.

IN CONJUNCTION WITH

Pharmintech 2013, April 17 - 19
BolognaFiere, Bologna,
Halls 19 and 22

Don't miss the opportunity to discover technological innovations by more than 300 internationals exhibitors from 17 Countries at Pharmintech 2013!

Pre - register on the website of the exhibition
www.pharmintech.it

Health Organizations and Authorities

Topic of this section is the state of the art and the future trends of the international initiatives of collaboration among all the anti-counterfeiting players. The activity of IMPACT task force is reference in this direction, with the welcomed intervention of other cooperating Organizations.

With the accent on International actions, indications for the Pharma Industry and for the Pharma Technology Providers would be most appreciated.

Drug Industry: Finished Product & Packaging

Anti-counterfeiting actions by Industry and Authorities increasingly regard the Finished Product, by developing serialization and traceability concepts and measures, along with appropriate packaging techniques.

The Industry perspective is given by the control of the drug supply chain, up to the final consumer through the intermediate passages, in compliance with the evolution of the National regulations all over the world.
